Subject: A Laser Safety Training, March 2021

Dear all,

The Safety and Radiation Protection Unit will perform another Laser Safety training during March 2021.

The training will be performed according to the Covid19 Technion regulations. It is mandatory to register to the training. Upon registration we will provide more information about the upcoming training, including a ZOOM link or Moodle orientation.

Time and location:

Refresher Laser training- March 10 @ 9:30-11:00.
The training is mandatory for PI’s, employees / graduates who intend to use 3B and 4 class laser systems working over a year since going through their laser safety training.

Please register in advance using this link.

Keep up the safe work, 
Tsafty
