Subject: Notice of safety training for October-November 2021

Dear all,

The Safety and Radiation Protection Unit hereby announces safety trainings in English during October and November 2021.

The trainings will be conducted according to the Covid19 Technion regulations.

Therefore, please notice that registration in advance to each training is mandatory.

Upon registration, additional details about the upcoming training will be provided.

Time and location:

Laser safety refresher training- on 13th of October at 9:30-11:00.

The training is mandatory once a year for researchers, employees / graduates who intend to use 3B and 4 class laser systems and already participated in a basic laser safety training.

Safe work with Cryogenics- on 28th of October, at 09:00-09:40.

The training is mandatory once a year for researchers, employees and graduate students who work with Cryogenic liquids.

Safe work with Gas Cylinders - on 28th of October, at 10:00-11:00.

The training is mandatory once a year for researchers, employees and graduate students who work with Gas cylinders.

Fire Extinguishing (theory and practice)- on 28th of October, at 11:30-13:00.

The training is mandatory once a year for lab researchers, employees and graduate students.

Please notice that people working in biological and chemical labs are required to attend fire extinguishing training every six months.

Basic laser safety training- on 15th of November at 9:30-12:30.

The training is mandatory for researchers, employees / graduates who intend to use 3B and 4 class laser systems.

Please register in advance to each training separately using [this link](#).

Best regards,
Safety Unit
