Subject: Notice of safety training for December 2021-January 2022

Dear all,

The Safety and Radiation Protection Unit hereby announces safety trainings in English during December 2021 and January 2022.

The trainings will be conducted according to the Covid19 Technion regulations. Therefore, please notice that registration in advance to each training is mandatory.

Upon registration, additional details about the upcoming training will be provided.

**Time and location:**

**Laser safety refresher training** - on 28th of December at 9:30-11:00.
The training is mandatory once a year for researchers, employees / graduates who intend to use 3B and 4 class laser systems and already participated in a basic laser safety training.

**Basic laser safety training** - on 10th of January at 9:00-12:00.
The training is mandatory for researchers, employees / graduates who intend to use 3B and 4 class laser systems.

**Fire Extinguishing** (theory and practice) - on 20th of January, at 10:30-12:00.
The training is mandatory once a year for lab researchers, employees and graduate students.
Please notice that people working in biological and chemical labs are required to attend fire extinguishing training every six months.

**Safe work with Gas Cylinders** - on 20th of January, at 13:30-14:30.
The training is mandatory once a year for researchers, employees and graduate students who work with Gas cylinders.

**Safe work with Cryogenics** - on 20th of January, at 14:30-15:30.
The training is mandatory once a year for researchers, employees and graduate students who work with Cryogenic liquids.

Please register in advance to each training separately using this link.

Best regards,
Safety Unit
