

Malfunction or a Safety Hazard

- If you discover a malfunction, safety hazard or immediate risk (such as a leak of liquids, gas odor, burning smell, break etc.) **stop all work procedures and immediately call the Security Unit, phone: 2222.**
- Provide the details of the incident and its precise location.
- Verify that your notification has been received and the hazard removed.
- Avoid blocking passageways and/or emergency exits. Ensure that others do not do so either.
