אל: ר' מנהל / יחידות ומנהלי מעבדות

Subject: Faculty Safety Seminar days, October-December 2024

Greetings,

In December, the safety unit will hold English safety seminar day for the following faculties:

Faculty	language	Date	Trainings
Biotechnology & Food Engineering and Biomedical Engineering (Churchill Auditorium)	English + Hebrew	08/12/2024	08: 45-10: 15 - General Lab Safety & emergency training** 10: 30-11: 15 – First Aid <u>Practical Gas cylinders training</u> (will be performed near the faculties): 11: 30-12: 00- for Biomedical eng 12: 00-12: 30- for Biotechnology and food eng. <u>Practical fire extinguishing (in the Practical engineering school parking):</u> 11: 30-12: 00 - for Biotechnology and food eng. 12: 00-12: 30 - for Biomedical eng

* In addition to the trainings provided at the seminars, some specific coursewares, such as Cryogenics + Gas Cylinders, should be completed on MOODLE ([Hebrew](#), [English](#)) as annual refreshers.

Fire extinguishing courseware is mandatory for all employees.

**The General Lab Safety training will be tailored to the faculty's specific line of work.

Links and useful information:

- To register to each training, please use [this registration system](#).
 - Identification by Technion user ID is required.
 - **Separate registration is required for each training session in the seminar.**
 - Registrants will receive a reminder and additional information a few days prior to the trainings.
 - Registered participants will receive confirmation of participation by email at the end of each training.
- [Technion Safety Unit Web site](#).

Best regards ,
Safety Unit
